📍 25,Ibukun street, Surulere Lagos, Nigeria.

Damilola Aleje, is a creative and vibrant young lady who hails from Lagos, Nigeria. She has a passion for documenting stories that are related to women in different capacities as well as creating content that is rich in Nigerian culture. She is a recent graduate of Masscommunication from the Nigerian Institute of Journalism, Lagos. She is currently under the tutelage of Renowned Filmmaker and Cinematographer, Tunde Kelani as a mentee, gaining practical experience in Film Production Management. She was a participant of the storytelling workshop for beginners by IREP International documentary Film Festival 2019.

She is also a Practicing Journalist, she has worked with the Nigerian Television Authority(NTA) Lagos in 2016, as an entertainment news anchor and content provider. she also worked with an online TV, Happenings as a TV presenter/ producer, she also worked as an intern radio presenter with one of Nigeria's leading radio station, 99.3 Nigeria info, as a radio presenter between 2017/2018.

Her first Documentary film project "life at Takwabay" was a final year school project on community Journalism which focused on reporting issues affecting our immediate community, where she highlighted the poor living condition of the people living in Takwabay community. In November 2019, she was part of the local team in Nigeria that Produced a documentary for TEDx Euston Legacy project, which focused on innovators creating energy solutions in Nigeria. The project screened at the TEDx Euston talk in London. She has over four years experience on screen as a TV Presenter/Producer radio presenter, content creation/ideation production management and Producing.

2019

I worked with NTA, as a Television presenter, Presenting Live shows, creating content for Television, editing and producing contents for television.

PROJECTS

Team Lead/Producer; life at Takwabay community Journalism project.

I led a team to film a documentary on the living conditions of people living in Takwabay bay community in Lagos State. The people in the community have never experienced electricity since inception, they do not have good schools and lack teachers because of how far it is from the main city. Lack of transportation and proper waste management system. The project was done to create awareness about the community through our Community Journalism course in school during my final year.

Project Lead: Creative Mornings

Creative Mornings is an international free morning monthly talk series for creatives with presence in over 206 cities in the world. Nigeria, got her chapter in January 2019, where we host creatives from different walks of life to a monthly talk series which is aimed at helping them find their inner creativity and becoming better versions of themselves. We bring different speakers monthly to head the talk, which I host on a monthly basis and also source for speakers for our audience to interact with.

Media lead: walk against Suicide Campaign

Walk against Suicide campaign is a charity Organization "which I volunteered to help walk against the high right of suicide in Nigeria," so as for those who are depressed to seek help and never keep silent. Suicide was a strange phenomenon in Nigeria until recently and to put and end to this I decided to contribute my quota by creating awareness through the media. As well as get people involved in the project.
